

→ Introducing intelliflo office

Tailor-made for financial advisers,
intelliflo office is an integrated front
and back-office solution — designed
to streamline and support the entire
client advice journey.

Break down your barriers to success

Servicing existing clients, prospecting for new ones, and ensuring actions and recommendations are in line with various financial regulations takes some serious planning, thought and time.

While putting the interests of clients first is undoubtedly what makes a successful adviser, making a financial advisory business a success, is not quite as straightforward.

Whether you want to generate efficiencies, achieve growth plans, evolve for the future, give clients a more consistent and engaging experience, or have more confidence in your data – **you're going to need the right technology to support you.**

intelliflo office is an award-winning business management solution that can do just that.

What's in it for you?

Generate efficiencies and save time

View accurate FUM, without having to contact providers. Easily reconcile fees, check on valuations, policies, and client plans.

Key in data once and use it for a variety of purposes. View a client's history, with information categorised and sub categorised – and all at the click of a button.

Achieve growth plans and evolve for the future

Scale the technical backbone of your business at a pace that is right for you. Initially you may want to just automate client valuations and income reconciliations.

As your business grows, you can select and seamlessly incorporate any of the 100+ integrations, as and when your business needs them.

Give clients a more consistent and engaging experience

Securely view, discuss, and share financial information with clients. Provide clients with up-to-date portfolio valuations, and clear visibility of their net worth.

An automatic audit trail provides peace of mind, and the white-label function means all your clients see is your own brand.

The proof is in the people

“

Since moving to **intelliflo**, the time I spend creating documents has reduced by 30 to 40 per cent. I was essentially double handling the information previously.”

Will Pickering
Financial Adviser
The Intuitive Group

“

intelliflo office has had a very positive impact on our business. We've seen a significant reduction in the time it takes to create a financial plan —probably around 25%. From a paraplanning perspective, producing an SoA now takes next to no time.

Jodie Bindig
Practice Manager
Latitude Private Wealth

“

As an adviser, you no longer need to spend ten minutes setting up the software before showing clients potential scenarios. With **intelliflo office**, I can share my screen, and clients can see the live process in real-time. It's simple, fast, and incredibly visual.

William Cant
Senior Financial Adviser
Ally Wealth Management

Making the complex **simple**

Because **intelliflo office** was designed by advisers, they put a lot of effort into making sure it was as easy to use as possible. They also knew exactly what they wanted the solution to do for you and your clients. That's why **intelliflo office** can help you...

→ **Share, confirm and submit documents** making it simple to minimise processing time and reduce servicing costs...

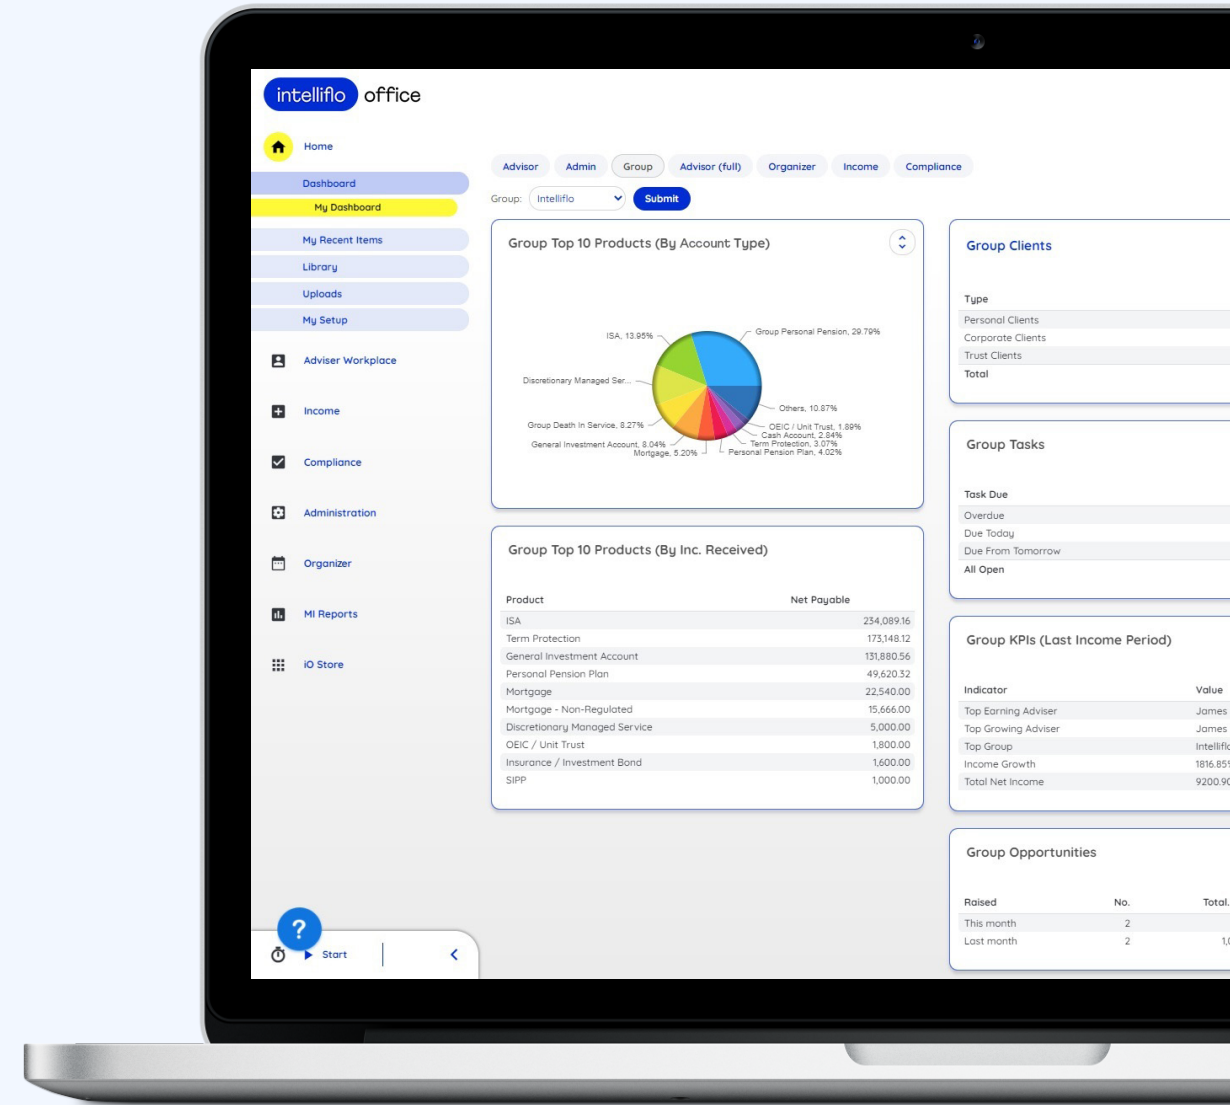

→ **Access real-time valuations** making it simple to value your clients' holdings with automated portfolio population

→ **Collect data from multiple areas** making it simple to enable accurate and cross-referenced reporting

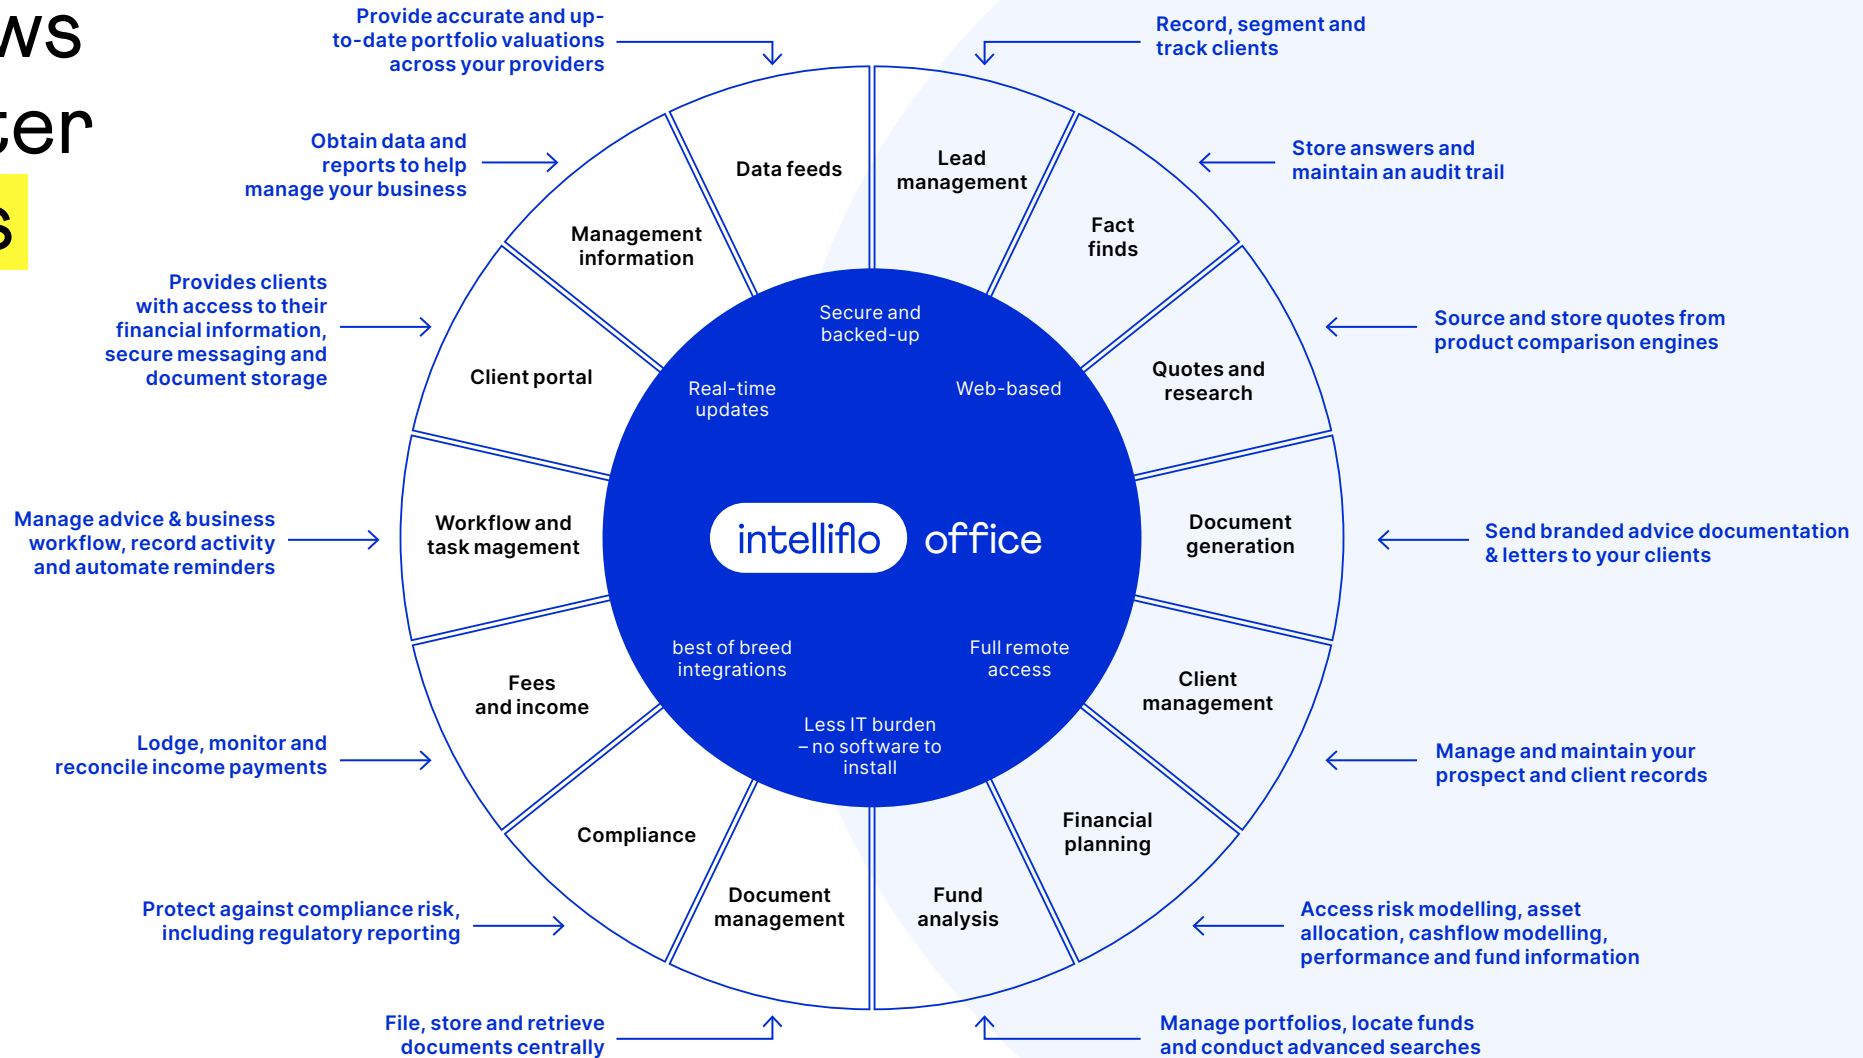

→ **Improve the quality of your MI** making it simple to have more confidence in your data to drive decision making

→ **Streamline your data entry** making it simple to increase the rate of accuracy and reduce data entry errors

→ **Automate income reconciliation** making it simple to give clients a more consistent, engaging experience

Seamless workflows for better business

Countdown to **success**

One powerful system that drives your business forward...

1. **Get started quickly.** With no software to install, all you need to do is [connect with our team](#) to book a demo. They'll support you with demos, data migration, onboarding and training.
2. **You won't get left behind.** Keeping up with regulatory requirements, tax, legal and fund changes, is all taken care of within **intelliflo office**. You don't have to lift a finger.
3. **Security built in.** Protecting your clients' data is as important to us as it is to you. **intelliflo office** is protected, secure, and validated by the ISO 27001 stamp of approval.
4. **Perfect for any size business.** Affordable and effective for smaller firms, but powerful enough to support large institutional customers.
